## ABOUT ME

Passionate full-stack developer with 3+ years of experience specializing in Python (Django/Flask) and React.js. Skilled in building scalable web applications, RESTful APIs, and dynamic user interfaces. Strong background in database management, API integration, and cloud deployment. Adept at solving complex problems and delivering clean, efficient code.

## EDUCATION

- MCA Amity University
- BA DU SOL (2018-2021)
- 12th CBSE (2018)
- 10th CBSE (2015)

## PROJECTS

- Banking System for UCO Bank
- 8 Maths Games
- The Perfume Planet store
- WSDS site
- Interactive video player
- HRMS
- Sezora Website

## ACHIEVEMENTS

- Successfully deployed a **Python Flask-based system** for UCO Bank, improving task automation and reducing manual errors.
- Developed and launched **8 educational math games** used in virtual labs, positively impacting student engagement in learning.
- Delivered a responsive **Django-based website** for the company, boosting online presence and SEO performance.
- Led a QA team of 10 members**, completing three major testing cycles with 95% bug resolution efficiency.
- Consistently met project deadlines with **100% client satisfaction** across internal and external software projects.
- Recognized by management for **initiative and leadership** during cross-functional collaboration and testing phases.

## EXPERIENCE

### Work Science Digital Solution Pvt. Ltd.

2022 - 2025

Full-stack Developer

- Developed a **Python Flask-based** management system for **UCO Bank**, streamlining internal operations and improving efficiency.
- Built and maintained the **official company website** using Django, ensuring responsive design, secure admin panel, and seamless CMS integration.
- Created 8 interactive **HTML/CSS/JS-based educational games** for virtual math labs (V-Labs) to enhance learning for school children.
- Led a **10-member testing team** for 3 months, overseeing QA processes, task delegation, and bug tracking to ensure timely and quality product releases.
